

Flow ng Level 9

Start sa without power

Click this to on:

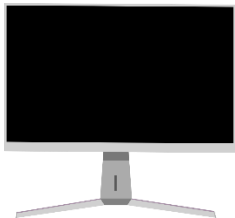

Monitor & pc Gagana na.

After clicking “On” button, ito yung magiging replacement:

IDEA KO SA PAG OPEN NG MONITOR:

May 2 seconds delay sa pag bago ng monitor

IMPORTANT

Disregard yung blue button ng na nasa pic kasi nag last-minute changes ako and ginawa ko nalang PSU power switch instead. Yung placement ng new button is nasa lower center screen kapantay lang din ng old blue button.

Old

New Placement

Or depende sa trip niyo san mas okay ilagay.
